

Contents

Chapter 1	Introduction	
	Introduction	1
	Division of Statistics	2
	Definition of Statistics	4
	<i>Statistics, Statistic, Statistician</i>	4
	<i>The Role of Statistics in Decision Making</i>	5
	<i>Application of Statistics in Business and Economics</i>	5
	<i>Statistical Challenges</i>	5
	<i>Limitations of Statistics</i>	6
	<i>Variables, Data and Types of variables</i>	6
	<i>Data Measurement Scale</i>	8
	<i>Nominal Scale</i>	8
	<i>Ordinal Scale</i>	9
	<i>Interval Scale</i>	10
	<i>Ratio Scale</i>	11
	<i>Problems for Practice 1</i>	11
Chapter 2	Data Collection	
	Why Data are Needed?	13
	Reasons for Obtaining Data	13
	Methods of Data Collection (Sources of Data)	14
	Methods of Collecting Secondary Data	14
	Classification of Secondary Data	14
	<i>Published Sources</i>	15
	<i>Computerized Databases</i>	15
	Benefits and Limitations of Secondary Data	16
	Methods of Collecting Primary Data	16
	Some Frequently used Methods of Collecting Primary Data	16
	<i>Direct Personal Interview</i>	17
	<i>Telephone Interview</i>	18
	<i>Indirect Oral Interview</i>	18
	<i>Information through Local Correspondents</i>	19
	<i>Mailed Questionnaire Method</i>	19
	<i>Internet Surveys</i>	20
	Experimental Research	21

Survey Research	21
Questionnaire	22
<i>Questionnaire Design</i>	22
Data Processing and Analysis	22
Population and Sample	23
Parameters and Statistics	24
Census and Sampling	24
Methods of Sampling (Types, Techniques)	25
<i>Random Sampling Techniques (Probability Sampling)</i>	25
<i>Non Random Sampling (Non Probability Sampling)</i>	29
<i>Problems for Practice 2</i>	30

Chapter 3

Tables and Charts

The Stem-and-Leaf-Display	31
Frequency Distribution	34
Classification Procedure	37
<i>Geographical Classification</i>	38
<i>Chronological Classification</i>	38
<i>Qualitative Classification</i>	38
<i>Quantitative Classification</i>	39
Raw Data	39
Frequency Distribution	39
Tally Bars (or Tally Marks)	40
Ungrouped Frequency Distribution	40
Grouped Frequency Distribution	40
Class Size	40
Grouped Frequency Distribution	44
Basic Principles for Forming a Grouped Frequency Distribution	44
<i>Types of Classes</i>	45
<i>Number of Classes</i>	45
<i>Size of Class Intervals</i>	46
<i>Types of Interval</i>	46
<i>Mid Value</i>	48
<i>Open End Classes</i>	48
Cumulative Frequency Distribution	49
<i>More than Cumulative Frequency</i>	50
Relative Frequency Distribution	51
Graphical Representation of Data	51

<i>Graphs of Frequency Distribution</i>	52
<i>Problems for Practice 3</i>	57
<i>Self Practice Problems</i>	61

Chapter 4 Summarizing and Describing Numerical Data

Introduction	67
Objectives of Averaging	68
Requisites of a Good Average or Measure of Central Tendency	69
Measures of Central Tendency	70
<i>Arithmetic Mean</i>	70
<i>Combined Mean</i>	72
<i>Median</i>	75
<i>Mode</i>	82
General Limitations of Average	84
Selection of an Average	85
Measures of Variation	87
Significance of Measuring Variation	87
Properties of a Good Measure of Variation	88
Measures of Variation	89
<i>Range</i>	89
<i>The Inter-quartile Range</i>	90
<i>Mean Absolute Deviation (MAD)</i>	91
<i>The Variance and the Standard Deviation</i>	92
<i>The Coefficient of Variation</i>	95
The Midrange	96
The Mid-hinge	97
Shape of Data	97
The Box-and-Whisker Plot	98
<i>Problems for Practice 4</i>	99
<i>Self Practice Problems</i>	104

Chapter 5 Probability

Introduction	117
<i>Classical Probability</i>	118
<i>Empirical Probability</i>	119
<i>Subjective Probability</i>	119
Counting Technique	120
<i>Multiplication Rule</i>	120

<i>Combinations</i>	121
<i>Permutations</i>	122
Basic Terminology in Probability	124
Rules for Finding the Probability	126
<i>Simple Probability</i>	126
<i>Addition Rule of Probability</i>	127
Multiplication Rule of Probability	130
Conditional Probability	131
Marginal Probability	135
<i>Problems for Practice 5(A)</i>	142
Application of Bayes Theorem	150
<i>Problems for Practice 5(B)</i>	153

Chapter 6

Discrete Probability Distribution

Introduction	155
Discrete Probability Distribution	156
Expected Value of a Discrete Random Variable	157
Variance and Standard Deviation of a Discrete Random Variable	158
Properties of Mathematical Expectation and Variance	163
<i>Problems for Practice 6 (A)</i>	166
The Binomial Distribution	168
Binomial Probabilities	169
Probability Function of Binomial Distribution	170
Characteristics of the Binomial Distribution	172
<i>Mean (Expected Value)</i>	173
<i>Variance and Standard Deviation</i>	173
<i>Shape</i>	173
<i>Problems for Practice 6(B)</i>	177
The Poisson Distribution	178
Probability Function of Poisson Distribution	179
Mean and Standard Deviation of a Poisson Distribution	179
A Poisson Distribution is an Approximation of the Binomial Distribution	183
<i>Problems for Practice 6 (C)</i>	184
<i>Self Practice Problems</i>	186

Chapter 7	Continuous Probability Distribution	
	Introduction	191
	Normal Distribution	192
	Finding Normal Curve Areas	193
	<i>Problems for Practice 7</i>	211
	<i>Self Practice Problems</i>	214
Chapter 8	Estimation of Population Parameters	
	Introduction	217
	Basic Terminology in Estimation	218
	Notation	220
	Standard Error of Mean	221
	Standard Error of Sample Proportion (p_s)	225
	Determining Sample Size	226
	<i>Problems for Practice 8</i>	233
	<i>Self Practice Problems</i>	237
Chapter 9	Hypothesis Testing	
	Introduction	241
	Basic Terms Concerning the Hypothesis Testing	242
	<i>One Tailed and Two Tailed Test</i>	242
	<i>Type of Errors while Making Decision based on Sample through Hypothesis Testing</i>	244
	<i>Level of Significance (α)</i>	245
	<i>Critical Value, Critical Region and Noncritical Region</i>	245
	<i>Test Value or Test Statistics</i>	246
	<i>The Critical Value Approach to Hypothesis Testing</i>	246
	<i>P-Value Approach to Hypothesis testing</i>	247
	Procedure for Solving Hypothesis-Testing Problems	248
	Hypothesis Testing of Population Mean	249
	Problems for Practice 9 (A)	255
	Hypothesis Testing of Difference between Two Populations Mean	258
	Problems for Practice 9 (B)	267
	Paired t-test for Difference of Means	269
	<i>Problems for Practice 6 (C)</i>	274
	Hypothesis Testing of Population Proportion (P)	275
	<i>Hypothesis Testing of a Single Population Proportion (P)</i>	275

<i>Problems for Practice 6 (D)</i>	278
Hypothesis Testing of Difference between Two Populations Proportion.....	279
<i>Problems for Practice 6 (E)</i>	282
References	285
List of Tables	286
